

Mean Girls High School Edition

In order to streamline the audition process, we ask that you audition with one of the pre-selected songs from the show. While this is not a comprehensive list, this will give the directing team a good idea of where you think your voice best fits in the show. Not all characters are listed and not everyone auditioning will get a lead role. Supporting, featured, and ensemble roles will be determined from these auditions as well. Please do your best to learn one of the following cuts to the songs listed below. You may be considered for a part you don't necessarily audition for; you still only need to sing one song. Click the character name to find the track and the sheet music.
